Summary

B.Tech Computer Science and Engineering student with hands-on experience in **Data Science, Artificial Intelligence, Machine Learning, and DSA**. Experienced in developing ML projects using Python and Scikit-learn, participating in Kaggle competitions, and solving **203+ LeetCode problems**. Active in technical leadership through ACM, NSS, and UBA, with an interest in building practical AI/ML solutions and automation workflows.

Education

ABES Engineering College

B.Tech in Computer Science and Engineering

Mahatma Hansraj Modern School

Class 12 – 84.5%

Technical Skills

Languages: Python, C++, C, JavaScript, SQL, HTML/CSS

AI/ML & Data Science: Machine Learning, Regression, Classification, Feature Engineering, EDA, NumPy, Pandas, Scikit-learn, CatBoost

Web & Tools: Web Development, Streamlit, REST APIs, Git, GitHub, VS Code

Core: Data Structures and Algorithms, Problem Solving, ML Workflows, Research, Data Visualization

Experience

ABES ACM Student Chapter

Vice Chair

- Contributed to technical activities, events, and initiatives of the ACM student chapter.

- Collaborated with student members to support technical learning and community activities.

NSS Club ABESEC

Technical Head

- Handled technical responsibilities and supported technology-related activities of the NSS club.

- Contributed to organizing and executing technical and social initiatives.

Projects

Student Performance Prediction using Regression | Python, Pandas, NumPy, Scikit-learn

- Built an end-to-end ML pipeline using **4 regression models** and achieved a **Top-10 ranking** in a competitive Kaggle challenge.
- Performed preprocessing, EDA, feature preparation, and evaluation using **3 metrics**: R^2 , MAE, and RMSE.

Smartphone Addiction Prediction | Python, Pandas, Scikit-learn, CatBoost

- Developed a classification pipeline using **CatBoost** with categorical feature handling for smartphone addiction prediction.
- Evaluated model performance using **ROC-AUC** and generated competition-ready predictions for Kaggle submission.

Autonomous Research Assistant | Python, AI/ML, LLMs, Workflow Automation

- Designed an autonomous AI research workflow integrating **4 stages**: task planning, information gathering, synthesis, and automation.

Achievements & Certifications

- LeetCode:** Solved **203 problems**, earned **3 badges**, and maintained **215 active days** with a maximum **51-day streak**. @rankendra23
- CodeChef:** Earned **Gold Problem Solver** for solving **500+ problems**, **Silver Contest Contender** for **25+ contests**, and **Diamond Daily Streak** for **100+ days streak** badges; achieved **90% Python Skill Test**. @rankendra.23
- HackerRank:** Achieved **90% Python Skill Test with 4***. @rankendrasingh23
- IBM:** Earned professional learning **3+ badges** and certificates.
- Police SPEL 3.0:** Participated in cybersecurity awareness, cybercrime reporting, and community policing activities.
- AICTE — IBM SkillsBuild – Machine Learning & Applied AI Internship 2026** Sep 2026
